Go Technologies corporate website — wording updates

Prepared for Tourithm · 13 October 2026 · Live site: https://go-tech-corporate.vercel.app/

From	To	Total changes	Scope
Akeel Mohamed, Go Technologies	Tourithm	13 text replacements	Wording only — no layout, design or structural change

How to use this document

- Apply only the wording updates listed below. All other copy on the website remains unchanged.
- Use the REPLACE WITH text exactly as written, including punctuation and dashes. Please do not paraphrase or shorten.
- Each item shows the page and section, the CURRENT text to find, and the NEW text. If the current text on the live site differs slightly from what is quoted here, apply the change to the equivalent text in that section and let us know.
- Please confirm once published, and share a preview link before the changes go live where possible.

Change list

1 Hero section · Page 1 · Hero description	
CURRENT	Go Technologies builds digital products that make travel and mobility simpler, more connected and easier to navigate - starting with GoChauffeur.
REPLACE WITH	**Go Technologies builds digital products that simplify travel and mobility, connecting people, services and experiences — starting with GoChauffeur.**

2 About section · Page 1 · Section headline	
CURRENT	More than a product. A technology company built around movement.
REPLACE WITH	**Building technology around the way the world moves.**

3 GoChauffeur section · Page 2 · Introduction paragraph	
CURRENT	GoChauffeur is a travel and mobility platform designed to make private chauffeur-led travel across Sri Lanka easier to discover, arrange and coordinate.
REPLACE WITH	**GoChauffeur is a digital booking platform connecting travellers with professional chauffeurs for private journeys across Sri Lanka — from airport transfers and day trips to flexible, multi-day travel experiences.**

4a What travellers can plan · Page 2 · List item label	
CURRENT	Chauffeur service for a day
REPLACE WITH	**Full-day chauffeur service**

4b What travellers can plan · Page 2 · List item label	
CURRENT	Help planning a flexible trip
REPLACE WITH	**Flexible trip planning**

5 Technology that feels human · Page 3 · Supporting sentence	
CURRENT	Our products are designed around journeys, coordination and the world beyond the screen.
REPLACE WITH	**We design technology for real-world journeys, making movement and coordination simpler beyond the screen.**

6a Starting with mobility. Building what comes next · Page 3 · Paragraph 1	
CURRENT	Go Technologies is building towards a connected ecosystem where technology can simplify more of the travel and real-world experience - from movement and discovery to the services that support a journey.
REPLACE WITH	**Go Technologies is working towards a connected ecosystem of digital products that simplify travel, mobility and everyday experiences — from discovering destinations to accessing services along the way.**

6b Starting with mobility. Building what comes next · Page 3 · Paragraph 2 (becomes two paragraphs)	
CURRENT	We begin in Sri Lanka, a market with distinctive travel patterns, infrastructure and opportunities. Building here gives us direct exposure to practical problems worth solving.
REPLACE WITH	**Our journey begins in Sri Lanka, where unique travel needs and real-world challenges offer opportunities to build practical, meaningful solutions.** **Our ambition is to take what we learn here and develop products that can serve people and businesses across borders.**

Implementation note: *The new second paragraph replaces the existing closing sentence beginning "Our ambition is to turn that understanding…", so the same idea is not repeated. Please remove that old sentence.*

7a Better journeys are built together · Pages 3–4 · Introduction	
CURRENT	Go Technologies works with organisations and individuals that can strengthen the products and experiences within the Go ecosystem.
REPLACE WITH	**We believe meaningful innovation happens through collaboration. Go Technologies welcomes partnerships with businesses, service providers and technology innovators who share our vision of making travel and mobility more connected, accessible and seamless.**

7b Better journeys are built together · Pages 3–4 · Partnership card: Technology partners	
CURRENT	Build and integrate useful capabilities.
REPLACE WITH	**Collaborate on integrations and technologies that enhance our products and services.**

7c Better journeys are built together · Pages 3–4 · Partnership card: Travel and hospitality businesses	
CURRENT	Connect relevant services and traveller experiences.
REPLACE WITH	**Explore opportunities to connect travellers with accommodation, experiences and complementary travel services.**

7d Better journeys are built together · Pages 3–4 · Partnership card: Mobility partners	
CURRENT	Help improve how people move through GoChauffeur.
REPLACE WITH	**Work with us to develop reliable, flexible and accessible chauffeur-led travel experiences.**

7e Better journeys are built together · Pages 3–4 · Partnership card: Strategic partners	
CURRENT	Explore what Go can build next.
REPLACE WITH	**Explore opportunities to develop new products, enter markets and create lasting value together.**
